Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 16 and 17, drawn to a pharmaceutical composition comprising two or more antisense oligonucleotides complementary to thymidylate synthase, If applicant must also indicate a selection from at least one of SEQ ID NOS: 1, 2, 3, 4, 5, 6; a combination of SEQ ID NO: 1 and 2; and a combination of SEQ ID NOS 1 and 3. If applicant selects SEQ ID NO: 1, 2, or 3 from the first selection then applicant may also indicate a combination that comprises the elected SEQ ID.

Group s II, claim(s) 18-29, drawn to a method of treating cancer compriing administering a composition of Group I.

In addition to the above the following applies to both groups I and II. Applicant must also indicate a selection from at least one of SEQ ID NOS: 1, 2, 3, 4, 5, 6; a combination of SEQ ID NO: 1 and 2; and a combination of SEQ ID NOS 1 and 3. If applicant selects SEQ ID NO: 1, 2, or 3 from the first selection then applicant may also indicate a combination that comprises the elected SEQ ID.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The prior art has disclosed antisense to thymidylate synthase, thues destroyoy any special technical feature. Berg et al [The Journal of Pharmacology and Experimental Therapeutics, Vol. 298(2):477-484, 2001] discloses a composition that contains numerous antisense oligonucleotides targeted to thymidylate synthase encoding nucleic acid. Branch A. [TIBS Vol. 23:45-50, 1998] further teaches that it was known in the art to "triangulate" a target with multiple different antisense to a target. (see page48).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence-now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Sean R. McGarry/ whose telephone number is (571) 272-0761. The examiner can normally be reached on M-Th (6:00-4:30)..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. Douglas Schultz can be reached on (571) 272-0763. The fax phone
